

Make a Wolf Mask

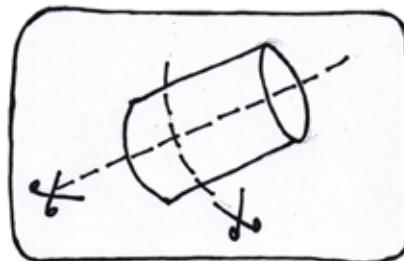

You will need:

- 1 sheet of craft foam
- 1 piece of fun fur
- 1 toilet roll
- 1 Small piece of card
- 1 Small piece of black leather/pvc
- 1 Plastic Fork
- Glue
- Scissors

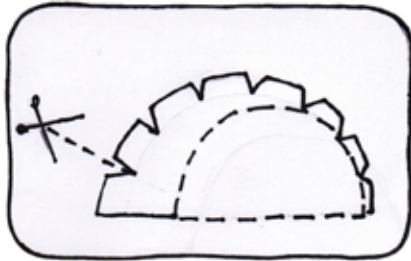

1. Cut out shape from craft foam. Make holes in sides of mask and thread elastic so it sits on the back of the head. Knot elastic so it does not slip through the holes.

2. Cut a toilet roll in half length ways. Then cut a 3" piece from the end of the roll, so you end up with a semi circle to make the wolf's nose.

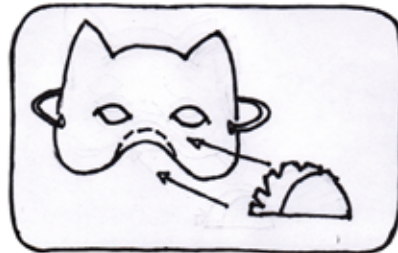

Please always ask a grown up to help when using scissors or cutters.

Make a Wolf Mask

3. Cut a flat semi circle from card and glue to the toilet roll to form the front of the nose.

4. Cut slits in the other side of the toilet roll and bend back to form tabs. Apply glue to tabs and attach to the foam mask.

5. Cut around the mask to create the same shape in fur. Glue fur to front of mask. Cut a strip of fur and glue to the curve of the nose.

6. Cut out two shapes of leather for the inner ear and a semi circle for the front of the nose. Cut two teeth from a plastic fork and glue to the bottom of the nose.

Please always ask a grown up to help when using scissors or cutters.
